ABOUT ME

I'm a highly motivated, passionate Web Developer with professional experience in building bespoke, fully responsive, user friendly websites. I ensure to keep up to date with the latest modern development technologies and put what I learn into practice via personal projects. I have a multifaceted background which enables me to thrive in any working environment.

WORK EXPERIENCE

Web Developer - iPOP Digital

2017 – 2018

St. Helier, Jersey

- Converting PSD files into fully responsive websites optimised for a variety of devices.
- Integrating websites with Craft CMS for clients to easily manage and edit content.
- Maintenance of existing websites.
- Developing additional features for existing websites.
- Liaising with clients regarding projects and queries.

Project Officer – States of Jersey

2016 – 2017

St. Helier, Jersey

- Managing various Health & Safety, Eco-Active and general business projects.
- Reviewing and compiling up-to-date documents and procedures.
- Assisting with general administrative duties.

Custody Operations Officer – Standard Bank

2010 – 2012 / 2014 - 2015

St. Helier, Jersey

- Ensuring the timely settlement of Unit Trust and Market trades.
- Processing client payments and FXs.
- Reconciliation of daily cash activity.
- Reviewing and compiling task procedures.
- Maintaining the Custody and Management fee database (MS Excel & MS Access).

PROJECTS

MusicianHub – View Code

HTML, CSS, Javascript, React, Redux, Node, Express, MongoDB

A social network application to help local musicians connect with each other. This is a full stack application built with the MERN stack.

Indecision – View Code

HTML, CSS, Javascript, React

A simple app built to learn the foundations of React. The app lets you enter some options and have the computer randomly choose one for you.

GitHub Finder – View Code

HTML, CSS, Bootstrap, Javascript, GitHub API

An app built to practice using modern JavaScript features such as Classes, Promises and async/await function. This app lets you search for a GitHub user based on their username.
